

# North South University

Department of Electrical and Computer Engineering  
Bashundhara, Dhaka-1229, Bangladesh

**Faculty:** Dr. M. Arifur Rahman (MAh1)

**Instructor:** Mashnoon Islam

## CSE482 Lab 4 Task

Create a form in an empty .html page, like the one shown below:

The screenshot shows a web form titled "Form Validation" enclosed in a rectangular border. The form contains the following elements:

- Name:** A text input field.
- Username:** A text input field.
- Password:** A text input field.
- Re-type password:** A text input field.
- Gender:** Three radio buttons labeled "Male", "Female", and "Other".
- Programming skills:** Four checkboxes labeled "Java", "Android", "Ruby", and ".Net".
- Contact no:** A text input field.
- Email:** A text input field.
- College:** A dropdown menu with the text "Select college" and a downward arrow.
- Submit:** A button labeled "Submit".

Validation Rules:

1. **Name** cannot be empty
2. **Username** cannot be empty and cannot contain whitespaces
3. **Password** length is between 8-32 characters
4. **Gender** is selected
5. **Contact no.** contains numbers only

There will be marks for correct implementation, organized code and good use of CSS to style the form. Marks will be deducted if your form styling matches with someone else's work.

Best of luck!
